

NOTES:

- 1) Dimensions typical unless otherwise noted.
- 2) All spaces less than 8.5' are compact spaces and must be marked with signage and have a painted end line to prevent larger vehicles from parking there.
- 3) End spaces in garages must be dedicated compact spaces to create better sight lines.
- 4) Avoid angled parking spaces. When necessary, use 60 angle.
- 5) Surface parking lots shall be constructed of flexible pavement.
- 6) Max slope allowed in any directions is 5% (2% for all ADA accessible spaces). Min. slope allowed in any direction is 1%.
